All in all, when asked by my colleagues if this is worth it, my answer has been “Absolutely!”

If you are interested in expanding your understanding of how a dog thinks, this course is for you. If you are interested in how you can help your clients have a better relationship with their dog, this course is for you. If you are interested in making it a better world for our pet dogs, this course is for you! **This course is more than learning how to be a dog trainer**, it's about learning how to be an ambassador for better dog/human relationships.

This course will exceed your expectations just one week into it. If you're looking at programs out there like I did – I did a good amount of research before I attended – look no further. **This is the way to go.**

-- Deb from Tampa, FL

”

The intensive was an awesome experience. **I have been to so many animal and also university level courses that don't even come close to what we had at the intensive.**

-- Miriam, UK VSA Dog Trainer Course Student

WHAT OUR STUDENTS ARE SAYING...

The Victoria Stilwell Academy is by far the most extensive program for anyone considering a career in dog training and behavior.

-- Teresa Hogge, VSA Dog Trainer Course Student

"Victoria Stilwell Academy is by far the most extensive program for anyone considering a career in dog training and behavior. The combination of the science & theoretical education combined with the very thorough hands on work with experienced trainers while working with dogs fully prepares trainers from all levels to be the best possible trainer & resource to their clients. I am confident in my abilities to help dog owners build the positive bond between themselves and their dog through what I have learned as a student of VSA."

-- Teresa from Ashburn, VA

"I love the passion that went into creating this course, the top-notch caliber and diversity of instructors and their holistic approach to training dogs."

-- Toni from Washington, D.C.

I just wanted to give VSA a huge thanks for everything we have worked on so far. Learning that my time was worth an appropriate price tag has given me an extreme amount of confidence in my selling abilities. In the last four days I had over \$1200 in class sales. Thank you to the whole faculty for a much needed boost of self-confidence and professionalism!

-- Laura from Green Bay, WI

I am a science teacher from way back, and I cannot say enough about the cleanliness, of the curriculum. It was on-target, it was on time, and it was not filled with frivolous information. Can't say enough about it – absolutely wonderful curriculum.

-- Vicki from Tampa, FL

I can't thank Victoria and all the instructors enough for everything that they've been willing to share and help us learn. It's been a fantastic experience and I cannot recommend the experience more highly.

-- Layne from Charlotte, NC

We were surprised and delighted that Victoria was present from the outset of the Intensive, and was intimately involved in the coursework throughout the entire Intensive. The quality of the curriculum was fantastic, as were all the lecturers.

-- Michelle from Sandy Hook, CT

I'm currently a student from Australia. This course is incredible and the travel to the intensives has been well worth every dollar. The phenomenal teaching, curriculum and hands on experience with the dogs has been wonderful and so educational. The support Victoria and the staff provide is amazing. The home portion of the course is extremely engaging as well, and I have felt no disadvantage at all being far away. They pair you with a mentor local to your area, which is great! I would highly recommend this course to any international (or local) students

-- Leah from Queensland, Australia

It was amazing! I loved being around other dog people and discussing our dog stories. Victoria was down-to-earth and just as amazing as I had imagined. The faculty were very knowledgeable and patient as they took questions and spent time with us during breaks, and I look forward to hearing more from all of my teachers!

-- Susan from Searcy, AR

I already feel I got my tuition's worth from this week's Primer Intensive alone.
